Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Positive Pay in view of US Pub 2001/0037315.

The references were discussed in the previous office action.

The applicant argues that Positive Pay does not teach the steps of receiving and comparing a presentment check file with a payor check file and sending an exception item notification via as recited in claim 1. The applicant's reading of the prior art and the claims are too narrow. The CD of the prior art could read on a single exception item and the claims can read on a file containing multiple exception items. In either scenario, the prior art anticipated this limitation.

The applicant also argues that there is no motivation to combine the teaching of the two references. Since email is readily known in the technical field of communication, the applicant's argument is not persuasive.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3693

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
